Principles, Production for Print
and Digital, Branding Systems,
UX Design Principles, Advanced
Visual Systems

GPA: 3.5

OBJECTIVE

I am a graphic designer with strong expertise in Adobe Creative Suite, specializing in creating effective visual concepts within collaborative work environments. I am eager to join a dynamic, collaborative team where I can leverage my graphic design skills to create impactful visuals and expand my design capabilities.

EXPERIENCE

Southern Research

June 2023-Present

- Developed a high volume of visual assets, including marketing materials, case studies, white papers, and presentations, expanding on digital and print platforms
- Effectively managed multiple concurrent projects, prioritizing tasks to meet tight deadlines while maintaining brand standards
- Presented ideas and concepts to various stakeholders and incorporate their feedback with direction from the Head of Strategic Marketing

Kinetic Communications

Graphic Design Contractor: *May 2022- October 2023*

Graphic Design Internship: *September 2021- May 2022*

- Designed more than 10 websites for clients including Birmingham Botanical Gardens, PangeaTwo, and Homewood City Schools Foundation
- Participated in pre-design meetings with clients
- Researched, planned, and developed design solutions
- Collaborated with Project Managers and Developers on the implementation of designs

Freelance

2021-Present

- Logo design for companies such as Vinson Media and Three Bees Honey
- Illustration and publication design for the book *Life In Words*
- Wedding invitation suites including various print materials
